

ADM-6.2

OEL-1036/44

23 OCT 1964

MEMORANDUM FOR: Director of Logistics

SUBJECT : Issuance of a New Task Order  
with [REDACTED]

25X1

25X1

1. The technical proposal, attached, was received from [REDACTED] and relates to the issuance of a work order type task. The effective date of the task is to be from date of negotiation through the end of the current fiscal year.

25X1

25X1

2. [REDACTED] is presently engaged in applied and theoretical research relating to the development of ELINT intercept and analysis systems, the development of techniques leading to the computerization of electronic intelligence, and the development of special purpose ELINT hardware. In each of these areas, [REDACTED] has and will continue to perform R&D on Agency behalf. Additionally, [REDACTED] has developed an almost unique capability in miniaturization which cannot be duplicated or paralleled by other contractors. The miniaturization program entails the use of solid circuit modules which frequently must be procured on a priority basis in order to maintain equipment at optimum efficiency. The contract recommended herein is for the purpose of obtaining engineering assistance in the areas set forth above on a need basis.

25X1

25X1

3. This contract is a work order type task and is designed to provide a quick reaction capability to OEL. Specific requirements to be levied on the contractor in connection with this task are not susceptible to forecast since work programs are to be instituted in response to emergency situations. OEL engineering personnel have reviewed the attached proposal and considers it acceptable in its present form.

4. ELR-219-65, attached, substantiates the [REDACTED] this Office has endeavored for purposes of executing the contract. Agency association with the contract is to be classified CONFIDENTIAL and all engineering studies, hardware, intelligence reports, etc., delivered by the contractor are to bear classifications prescribed by the Project Officers.
